DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR § 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 9-13, drawn to a nucleic acid encoding a polypeptide, a vector comprising said nucleic acid and a host organism comprising said nucleic acid or vector.

Group II, claim(s) 6, drawn to a polypeptide.

Group III, claim(s) 7, drawn to a method of developing herbicidal compound using a polypeptide.

Group IV, claim(s) 8, drawn to an herbicidal compound.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of claim 1 or 6, for example, was known in the art prior to Applicants' invention, a biologically active derivative polypeptide and nucleic acid encoding same were disclosed by Strepp *et al* 1998 (cited in the PCT search report). Hence, the claims lack the same special technical feature and thus do not relate to a single general inventive concept.

3. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR § 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17(i).
